In this prequel film to 'The Transformers' film series, this movie opens on the planet Cybertron as a fierce battle rages on between the good Autobots and the evil Decepticons. Optimus Prime (voice of Peter Cullen) blasts away foes as he calls in assistance from B-127 (voice of Dylan O'Brien). The small Autobot comes in beating the Decepticons until Optimus tasks him with a mission. They head toward a launch pad so that Optimus can send B-127 to planet Earth for refuge and to help establish a base for the Autobots. The Decepticons rush over to destroy the launch pad, but B-127 makes it off Cybertron in time while Optimus stays to keep fighting.
